

To whom it may concern:

Eva Batalla, as the director of the company Taronja, Villa-Herba SL.

Fiscal number: ES-B97457600

Certificates that:

1º Our host families have been carefully selected, and inspected, by us and have worked previously with our school. We always try to find families located near the school with medium-high standards of life and willing to make the stay of the students a great experience.

2º None of our host families has any criminal records.

3º None of the students will be hosted by single men.

4º After their staying, our students fill in a questionnaire to evaluate all aspects concerning our host families. Thanks to this, we have constant updated information on our families, which allows us to detect immediately any kind of anomaly.

5º Home stay is not like living in a hotel. Students must remember they are guests in the host home and that they will be treated like a member of the family. Students should treat all members of the house with courtesy and respect at all times. There is an attached document named "Valencia Family Rules" that students must respect.

6º The participants should abide by the schedules established for nightly curfew, by the host families and their institution, in agreement with TARONJA.

7º Only due to special situations will the students be allowed to change their host families.

8º All our host families have been vaccinated against Covid-19 and have the vaccination passport issued.
