SPANISH  
COURSE

# + PCE COURSE

The two most important and most extensive parts of our university entrance program are the Spanish course and the PCE course. Here we explain a little more about these two courses.

# SPANISH COURSE

First of all, you should be aware that in order to take our PCE course (preparation course for the Spanish university entrance exam), **you must have at least a B1 level of Spanish, both spoken and written.**

Our **Spanish course** is a pre-course to our PCE course and is designed for students **who do not know how to speak Spanish or who have a level lower than B1.**

All our Spanish courses are intensive courses, with a **minimum of 20 hours of class per week.** They are standard courses where we will teach you to speak and write correctly in Spanish together with other students from all over the world. In addition to this, we will provide you with various EFE (Spanish for Specific Purposes) materials where you will learn specific vocabulary and constructions that will be useful for your subsequent PCE course.

The length of your course will depend on your previous level of Spanish. We have courses for beginners from level 0 (zero) up to students with higher levels. We recommend that you have a **preliminary interview** with our head of studies to check your exact level in order to help you choose the right course.

Also, remember that **TARONJA is one of the most fun and amazing schools in the world.** We have a **weekly program of great activities**, with dinners, parties, cultural venues, excursions, trips... During your Spanish course you will meet other students from all over the world and **make friendships that will last forever.** This is the TARONJA spirit that makes our school a very special place.

# PCE COURSE

This is our course to prepare for the **Pruebas de Competencia Específicas from UNEDAssis (PCE UNEDAssis)**, i.e. the **Spanish university entrance exam for foreign students**.

Our **partner** school in Valencia has been preparing the PCE for years with excellent results. Apart from preparing you perfectly for the university entrance exam, they can also take care of the accreditation and admission to Spanish universities for all our international students. They always work with qualified and experienced teachers and know the tests inside out. So don't worry, you are in good hands.

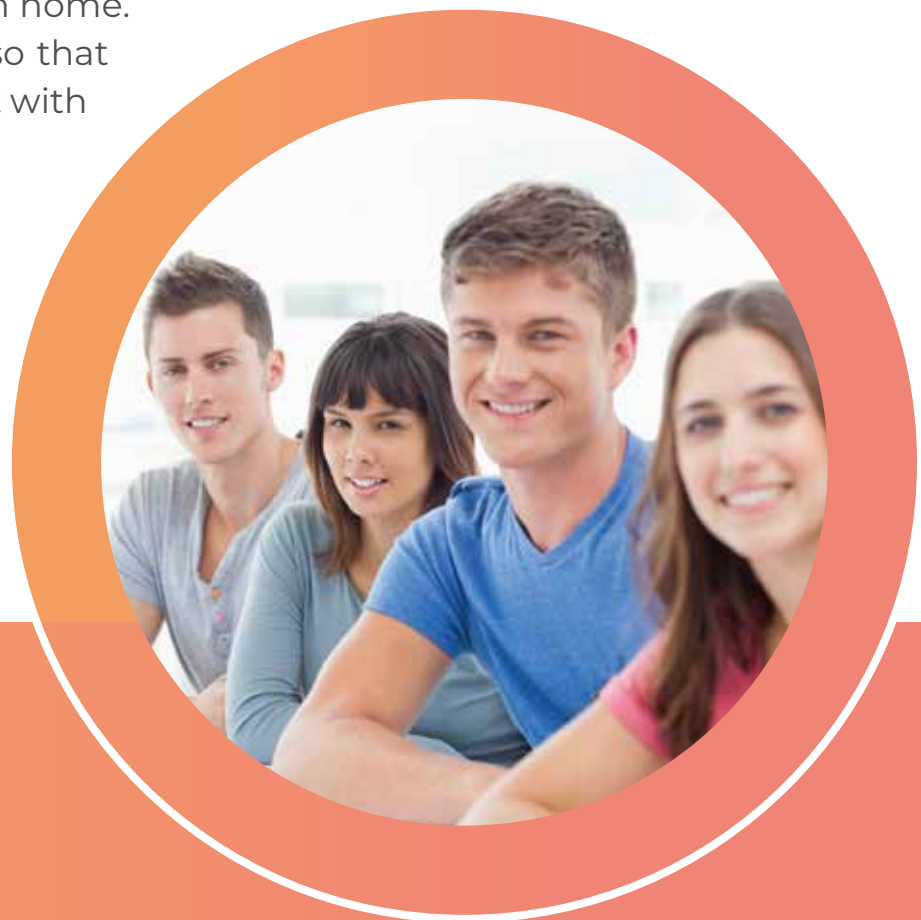

**STANDARD PCE COURSE:** Our Standard PCE course starts in January and lasts approximately 5 months (until the official exam date). We will prepare you for the 4-6 subjects of your choice and you will have 20 hours of course per week, in face-to-face classes with other students from all over the world.

**PCE PLUS COURSE:** For students coming from countries where the teaching systems are very different from the Spanish ones, we have a PCE PLUS course of 7 months. This course consists of 2 months of preparation for the PCE course + 5 months of standard PCE course. The preparation for your PCE course will be done in parallel with your Spanish course and consists of 5 hours per week for two months. If you have any doubts about whether to take the standard PCE course (5 months) or the PCE PLUS course (2+5 months), please contact us.

The classes have a **maximum of 12 students per group** and we explain all the theory for you to learn and internalize. You can attend the lessons **in person or online** from home if you prefer. In them, we do a lot of mock exams so that you feel prepared on the day of the test. We also do mock exams periodically and the lessons are always recorded so that you can watch them as many times as you want.

But that's not all, you can also continue studying online with the **VIRTUAL CLASSROOM**. This is a portal where you can find all the theory of the course, as well as explanatory videos, past exam papers and a multitude of varied resources for you to continue learning from home. It also has a **forum for queries** so that you can keep in constant contact with your teacher.
