REQUIREMENTS TO ACCESS A SPANISH UNIVERSITY

To be able to access a public university in Spain as an international student, you need to meet a series of academic and administrative requirements. At TARONJA, we help you understand each one and guide you through the process so you don't get lost in the paperwork.

Validation of the high school diploma

You must validate your secondary studies with the Spanish education system. This procedure is managed through the Ministry of Education and can be done either from your country or once you are in Spain. **This is an additional service you can hire through Taronja. Check our prices in the additional services table.**

Certification of B2 level in Spanish

Universities usually require proof of a minimum level of language proficiency. The SIELE or DELE exams, which you can take directly at TARONJA, are official certificates valid for this purpose.

Passing the PCE – UNEDassis exam

The “Prueba de Competencias Específicas” (PCE) is the entrance exam for international students. It takes place between May and June and assesses specific subjects based on the chosen university degree. **If needed, you can hire specific tutoring sessions for guidance and help with registration.**
