A PATH DESIGNED FOR YOU, WITH SUPPORT AT EVERY STEP

Studying at a Spanish university is an exciting goal, but also a challenge when you come from another country.

At **TARONJA School**, we understand what it means to start from scratch: a new language, a new education system, new opportunities. That's why we have created a **comprehensive programme** that combines intensive Spanish learning with specific preparation for access to Spanish universities (PCE – UNEDassisi), supported by a team that guides you, motivates you and celebrates your achievements.

This is not just a course. It is **an academic and personal pathway** designed to help you reach your goal with confidence, level and security.

WHY CHOOSE THIS PROGRAMME?

- ↳ Learn Spanish from any level (A0–A2) up to B1/B2
- ↳ Prepare with an expert academy to pass the PCE exam. Combine on-site and online classes, tutorials, downloadable materials, tests and mock exams
- ↳ We can give you support with all administrative procedures: visa, qualification recognition, registration
- ↳ Take part in activities that help you integrate into life in Spain
- ↳ Join an international student community in Valencia
- ↳ Receive academic and personal guidance throughout the entire process

HOW DOES THE PROGRAMME WORK?

Combined Spanish + PCE Programme

This programme is designed to prepare you thoroughly for university access in Spain, combining language learning, cultural integration and solid preparation for the PCE exams. It is divided into two complementary stages, allowing you to progress confidently and without unnecessary pressure.

① Stage One: July/September – December Intensive Spanish & Introduction to PCE Preparation

During the first months, the focus is on **intensive Spanish** classes and **cultural immersion** in Valencia. You'll get to know the city, its culture and its people, connect with international students and fully enjoy this unique experience.

Your Spanish school will be TARONJA, one of the most internationally recognised language schools, with over 20 years of experience teaching Spanish to students from all over the world. TARONJA is **accredited by the Instituto Cervantes** and is a member of the prestigious IALC association.

TARONJA is more than just a school, it will be a meaningful part of your life during these months. We'll support you in reaching your **academic goals**, while also making sure your time in Valencia becomes one of the most special and happiest experiences of your life.

At the same time, from the very beginning you will also start preparing for the **PCE exams**. This preparation is carried out at our partner academy, specialised in these exams, with extensive experience and excellent results.

Even if your Spanish level is still developing, from September you will have access to:

- **Virtual classroom** and complete materials
- Live and **recorded** classes
- Personalised **meetings** with teachers
- **Practice Exam** and subject-specific resources
- Information and reminders about PCE **registration deadlines**
- **Guidance** on the registration process and exam sessions
- Access to a **communication group** (Telegram) with the academy community
- Guidance for private universities
- Possibility of **registering for the February** exam session

This way, you will gradually familiarise yourself with the subjects, study methods and exam format at your own pace.

Second Stage: January – May Intensive PCE Exam Preparation

From January onwards, the programme focuses entirely on **PCE exam preparation**. You will continue with the selected subjects and have structured time for independent study.

You will keep **access to all the content** worked on since September, so you can review classes, materials, exercises and practice exams as many times as needed.

REQUIREMENTS TO ACCESS SPANISH UNIVERSITY

To access a public university in Spain as an international student, you must meet certain academic and administrative requirements. At TARONJA, we help you understand each one and guide you through the entire process.

Recognition of Secondary School Qualification

You must validate your secondary education with the Spanish education system. This procedure is managed through the Ministry of Education and can be done from your home country or in Spain. Included in our Standard and Premium programmes.

B2 Spanish Level Accreditation

Universities usually require proof of a minimum Spanish level. The SIELE or DELE exams, which you can take directly at TARONJA, are officially recognised certificates.

Passing the PCE – UNEDassiss Exam

The “Specific Competency Test” (PCE) is the university access exam for international students. It takes place between May and June and assesses specific subjects depending on the chosen degree.

ACCOMMODATION

You can arrange accommodation with us during your first months to help you adapt. This period allows you to get to know the city and connect with other students.

You can share an apartment with other students or live with a Spanish host family to reinforce your language learning.

Please note that registration at city hall (empadronamiento) is not possible in our apartments. We recommend staying for a maximum of 3 months while you look for a more permanent option.
